Dear Parents and Carers

School Money – Cashless Payments System

We are delighted to confirm that the school is now able to offer you the facility to make on-line payments for trips, uniform and other school activities.

This new system should make it quicker and easier for you to make payments to school without having to ensure you have the correct change or the need to write a cheque. The system is safe and secure and there is no administration fee when making a payment.

How will it work?

You will shortly receive a text message from school containing your login details and password, these will remain the same each time you login to the system. The message will also give you the website name.

School Uniform

If you wish to purchase school uniform just visit the school shop area on the School Money website where you will find a list of all items available. Once you have placed your order, your items will be ready and waiting for collection from the school office within 2 working days. You will also find a link to the school shop on our own school website at www.barnhamprimaryschool.co.uk

School Trips

When a school trip is being arranged you will receive details of how to make a payment which will include cash, cheque or on-line.

Many thanks for your support and we would encourage you to make use of this system. Please don't hesitate to see me if you have any questions or feedback on the system.

Regards

Nicky Schofield
